Detailed to Cosmos Club

"The Rise of the Yeast Plant" was the subject of a lecture last night delivered by F. Alexander McDermott, of the Chemical Society of Washington, at the Cosmos Club.

H. E. Bichblinder opened a lively discussion in regard to the reliability of certain chemicals on the market, advertised, sold and labeled as being thoroughly analyzed.

LADIES! DARKEN YOUR GRAY HAIR

'Look Years Younger! Use Grandmother's Recipe of Sage Tea and Sulphur and Nobody Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But, beware! At home in mussy and out-of-date. Nowadays by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adm.
